

# Project Updates

**BRINGING 1 RIVER,  
21 SUBWATERSHEDS,  
AND 10 MILES OF  
LAKE ERIE SHORE  
BACK TO HEALTH**

## STEPS TO DELISTING

1. Implement **Management Action Projects (MAPs)** to improve conditions and address specific issues,
2. Remove all **Beneficial Use Impairments (BUIs)** when the target for each issue is reached, and
3. Delist the Cuyahoga River as an **Area of Concern (AOC)** when all MAPs are complete and all BUIs are restored.

Management Action Projects (MAPs) are proposed plans that incorporate remedial actions aimed at addressing specific BULs, improving conditions in the AOC.

## Completed Projects

**Canal Diversion**  
*Dam Removal*

**Sowinski Park**  
*Habitat Restoration*

**Cascade Metro Park**  
*Valley View Area*  
*Habitat Restoration*
